# Sprint 2 Plan

Untitled Social

Revision: 0

## User Stories

1. As a user, I need to be able to post to topics that I join. [13]

    a. Create backend function to post to specific topic based on schema (4)

    b. Create frontend topic page to compile and view topic content for followers (6)

    c. Add ability to post to specific topic to frontend create post form (2)

2. As a user, I need to be able to search for and follow other users. [5]

    a. Create a search bar on the frontend with which users can interact (3)

    b. Create a database search function for users (5)

3. As a user, I need to be able to view the content of users I have followed, with a permissions structure. [5]

    a. Modify createPost function and database schema to include permission structure for post viewing (6)

    b. Modify feed function to only server content for which the current user has permission to view (5)

    c. Add follow button to user profiles and topics, connect to backend functions (3)

4. As a user, I need to be able to comment on the posts of people I have connected with. [8]

a. Disallow users from commenting on any posts they do not have permission to access (4)

b. Modify comment posting and access functions so posts in a topic may be commented on by followers of that topic (3)
